CAREER OBJECTIVE

Full Stack Developer with strong foundations in Data Structures, Object-Oriented Programming, and Cloud Computing (AWS). Experienced in developing scalable web applications using React.js, Node.js, Express.js, and PostgreSQL, with hands-on exposure to RESTful API development and event-driven architectures. Focused on designing scalable architectures, optimizing backend performance, and developing production-grade software systems.

EDUCATION

GMR Institute of Technology 2023-Present
UG: Information Technology Rajam
CGPA: 9.1/10

M.J.P.A.P.B.C.W.R. Junior College 2020-2022
Intermediate: MPC Simhachalam
Marks: 931/1000

Abhyudaya High School 2020
SSC Marks: 600/600 Bobbili

SKILLS

Programming Languages
C, Python, Java, SQL, C++

Frontend Skills
HTML, CSS, React.js, JS

Core Competence
DSA, Problem Solving, OOPs, Machine Learning

Backend Skills
Node.js, Express.js, REST APIs, PostgreSQL

PROJECTS

MentorGPT – Full-Stack Adaptive Learning & Skill Recommendation Platform **GitHub**

- Designed and developed a production-grade full-stack platform delivering personalized skill roadmaps using adaptive assessments and recommendation algorithms.
- Implemented server-side mastery scoring logic and dynamic roadmap generation engine.
- Built interactive dashboards with real-time skill analytics and progress tracking.
- Architected event-driven update system to dynamically modify skill graphs based on user performance.
- Designed scalable PostgreSQL schema supporting assessment history, skill mapping, and performance analytics.

InstruNet AI: Music Instrument Recognition System **GitHub**

- Developed a deep learning model to classify musical instruments from audio using CNN architectures.
- Built preprocessing pipeline converting audio files into Mel-Spectrogram and STFT representations.
- Trained multi-class and multi-label classification model achieving 99% validation accuracy on dataset of 5,000+ samples.
- Implemented time-based instrument intensity visualization and report generation in JSON/PDF format.

CERTIFICATES

Cloud Computing with AWS
AWS Academy

C++ Certification
Udemy

Python Certification (Basic)
Hacker Rank

Cloud Foundations Associate
Oracle

WORK EXPERIENCE

HashTek Solutions 06/2025– 07/2025

Cloud Computing Intern Visakhapatnam

- Engaged in hands-on learning of AWS cloud platform, exploring core services like EC2, S3, IAM.
- Learned to configure access control using IAM roles and policies, and explored setup of EC2 instances, S3 storage.
- Developed understanding of cloud architecture, performance optimization, security best practices, and cost-efficient infrastructure management.

ACHIEVEMENTS

- **Achieved** Google Cloud Arcade **Legend Tier** by completing advanced hands-on labs on cloud infrastructure, DevOps, and data services using Google Cloud Platform
- Published Research Paper in **IJRPR** "Android malware detection using Machine Learning" for automated threat classification and analysis.
